**You are invited** to Ukraine creative workshop at which the goal is discuss and develop solutions and joint projects that can promote a higher quality of life without increasing the pressure on our limited resources – our planet, our time and our money. You are invited to **share your expertise and participate in the co-creation of solutions for smarter living**. Your knowledge and creativity may be what's needed in order to create the solutions of tomorrow.

Smart Living Challenge is an open innovation competition designed to generate business opportunities and ideas that foster a sustainable lifestyle in cities. Fifteen winners will be given the support they need to bring their ideas to the market. The challenge will also open up the doors to an international network of researchers, entrepreneurs, and innovators. But that's not all. The winners will be taken on an exciting trip to innovative hotspots in Sweden, during the Nobel Week 2014. Your knowledge and creativity may be what's needed in order to create solutions of tomorrow.
